## City Profiles USA

This one-of-a-kind directory profiles 257 important cities, including the largest U.S. cities by population, the 50 state capitals, nine major Canadian cities, and London, Paris, and Tokyo. Each profile contains a brief description of the city, basic facts about the city, a table of average temperatures and precipitation, a table of driving distances/times between the city profiled and other major cities, and contact information for local services and facilities —names, addresses, telephone numbers (including toll-free numbers, where available), fax numbers, and for many listings, web site addresses. Each city profile follows a standardized format and presents listings under the following headings: Information Sources, Transportation Services, Accommodations, Restaurants, Shopping, Hospitals, Media, Colleges and Universities, Attractions, Sports and Recreation, and Events .

## Moving & Relocation Directory

Important contact information (addresses, telephone and fax numbers, toll-free numbers, web addresses, e-mail addresses), statistical and demographic data, and other helpful details are provided for 121 U.S. cities, including major population centers as well as smaller cities that are popular relocation destinations. Arranged alphabetically by city, the directory provides extensive contact data for local government offices, other local information sources, area communities, major employers, education, hospitals, utilities, banks, attractions, and more. Other types of information provided include the city's location, weather and climate, history, population, economic and quality of life indicators, and educational statistics. Also supplied is data on state sales tax, state corporate and individual income tax, local income tax where applicable, job growth rate, and property appreciation ratio. A special section on Where to Get Help for Moving provides a number of important resources for information and assistance with moving. A comprehensive Index of Cities and Counties covered within the sourcebook is included as well.

## Parks Directory of the United States

This comprehensive reference directory serves as a one-stop guide to our national and state parks, and other designated recreational, scenic, and historic areas in the United States and Canada. It provides up-to-date contact and descriptive information for every national and state park in the U.S., national forests and wildlife refuges, and all national parks in Canada. Listings provide details about each park, including: complete contact information, including web site addresses; established date for national parks; acreage; location; facilities & activities; and special features. In addition, the book covers a wide range of recreational areas, historic sites, battlefields, monuments, forests, preserves, memorials, seashores, trails, and other designated recreational areas administered by federal land agencies and state park agencies. Also listed are more than 300 park and conservation organizations with descriptive information. Listings are presented in several main sections according to type of park. The section on U.S. state parks includes maps to help pinpoint the location of the parks. Includes detailed indexes.
